Changes to the Board of Directors in 2018

In 2018, the Shareholders Assembly reelected for the April 2018-March 2019 term the same seven members who formed the Board from April 2017 to March 2018, namely:

- Antonio Mario Celia Martínez-Aparicio
- Jaime Alberto Palacio Botero
- Mauricio Reina Echeverri
- Cipriano López González

- David Emilio Bojanini García
- Gonzalo Alberto Pérez Rojas
- María Clara Aristizábal Restrepo

In the Board of Directors meeting held on April 27, 2018, Mauricio Reina Echeverri was appointed as the new chairman of the Board and of all its support committees.

Members of the parent company's Board of Directors included in the Boards of Directors of the subsidiary companies or who occupy executive positions in them

Grupo Nutresa has determined that its companies in Colombia shall be simplified stock companies without a board of directors as part of their administrative structure. Only those subsidiary companies in which Grupo Nutresa S.A. is not directly or indirectly the holder of 100% of their ownership interest have a board of directors.

In the case of the foreign companies, they have a board of directors formed by executive members if the local corporate regulations require the companies to have this kind of administrative body.

In 2018, none of the members of Grupo Nutresa S.A.'s Board of Directors was part of the boards of directors of the subsidiary companies that have such administrative body or occupied executive positions in them.

Policies approved by the Board of Directors in 2018

No new policies were approved by the Board of Directors in 2018.

Over the past year, the Board of Directors and the Senior Management continued to support the execution of the Business Ethics Program, which has the purpose of promoting transparency and ethics in all companies.

All the policies approved in recent years are currently published on the Company's website and they can be found following these routes: www.gruponutresa.com > Investors > Corporate Governance > Policies; and www.gruponutresa.com > Investors > Corporate Governance > Code of Corporate Governance.

Board of Directors members appointment process

The election of the Company's Directors was carried out by complying with the legal and statutory procedure established for such purpose. The procedure indicates that the election must be carried out by applying a voting quotient system, unless the appointment is made by unanimity of the votes corresponding to the total stock represented in the meeting.

For the ordinary meeting of the General Shareholders Assembly held on March 20, 2018, the shareholders presented only one list of candidates to form the Board of Directors, proposing the reelection of all the members who were part of the Board as of that date. The proposal was approved with the affirmative vote of 84,40% of the shareholders attending and represented in the meeting.

The list of candidates, complying with the provisions of the Shareholders Assembly Operation Rules, was submitted fifteen (15) days prior to the meeting. This allowed to verify that the nominated candidates met all the requirements demanded by the Code of Corporate Governance to be part of the Board and to be independent members, as the case may be.

Additionally, the Appointment and Remuneration Committee presented before the Board of Directors a report on the assessment and availability of the members whose reelection was proposed for forming the Board of Directors for the April 2018-March 2019 term. This report was part of the Proposals of Resolutions published on the Company's website fifteen (15) days prior to the date of the Assembly's ordinary meeting.

The Company has a Board of Directors Remuneration and Assessment Policy that includes the guidelines for the definition of the compensation and any other economic benefit that would be granted to the Directors, and it also contains the criteria and procedures for assessing their management. The aforementioned policy is published on the Company's website and it can be found following this route: www.gruponutresa.com > Investors > Corporate Governance > Policies.

An important component of the remuneration of the Company's Senior Management is the variable compensation. The Superior Achievement Acknowledgment System (abbreviated SRS in Spanish) has the purpose of acknowledging the superior achievement and the constant generation of value, and it comes from the profits shared by the shareholders with the employees who fulfill goals that contribute to the achievement of the Organization's strategic goals.

The SRS also has these purposes: aligning the Organization's goals with the shareholders' goals, finding higher levels of competitiveness, attracting and retaining human talent, stimulating both individual and team work, promoting high performance and people's contribution, encouraging leaders to think strategically in the long term, and giving meaning to the performance management and to the dialog between leaders and subordinates in the context of goal fulfillment.

The variable compensation of the Corporate Committee members represented 15,66% of their remuneration in average in 2018.

The main indicators considered for the calculation of the variable compensation of the Corporate Committee members in 2018 were the following:

Powers of the Board of Directors over the transactions with related parties and situations of conflicts of interest

The Company has a Policy on Transactions between Related Parties that defines the scope and the procedure for the assessment, approval and disclosure of the transactions carried out between Grupo Nutresa's related parties.

This policy indicates that the Finance, Audit and Risks Committee is in charge of the knowledge and assessment of the transactions between Grupo Nutresa's related parties and that this Committee must submit a report on the conclusions of the corresponding assessment to the Board.

Additionally, the policy stipulates that all the transactions between Grupo Nutresa's related parties must be carried out under market conditions and need to be approved by the Board of Directors, with the exclusion of the interested party, if it is the case. When there is a relevant transaction that is not carried out under market conditions, and that could eventually end up altering the fairness of treatment among the shareholders, and if its volume or complexity are significant enough, the transaction has to be approved by the General Shareholders Assembly.

The Board's approval of the relevant transactions between related parties requires, additionally to the report from the Finance, Audit and Risks Committee, a qualified majority formed by the affirmative vote of three quarters of the Board and the affirmative vote from the Independent Members.

None of the transactions conducted in 2018 between related parties required the approval from the Board of Directors or from the General Shareholders Assembly.

The Directors, the legal representatives and all other executive managers of the Company should inform the Committee about the direct or indirect relations there are among them or with other organizations or structures of the business group, with Grupo Nutresa S.A., or with suppliers, customers or any other related party, from which conflict of interest situations could arise or have influence over the direction of their opinions, vote or decisions.

Grupo Nutresa **has a comprehensive risk management system that covers all the businesses** and instances of the Organization.

Explanation of the business group's Internal Control System and the modifications it underwent in 2018

Within the framework of its corporate governance model, the Company has taken on the best practices for the design, implementation and monitoring of the internal control system. This system includes, among other components, the necessary resources to guarantee the safekeeping of the Company's assets, the efficiency of its operations, the compliance with the applicable laws and regulations, and the accuracy and reliability of the information required to plan, direct, control and measure the performance of its businesses, and to ensure an adequate disclosure of the financial information to its shareholders and other investors, as well as to the market and the general public.

These resources include comprehensive risk management processes, the internal audit, accountability systems, control plans and programs, budget and cost tools, an account chart, standardized policies and procedures, integrated information systems and templates for documenting and recording operations, as well as indicator dashboards for the Senior Management to continuously monitor the processes.

For the management of the resources related to the internal control system, the Company relies on the duties and responsibilities in terms of internal control and risk management of the Board of Directors, its Finance, Audit and Risks Committee, the Senior Management, as well as the Internal Audit Management and the Risk, Insurance and Infrastructure Management Departments of Servicios Nutresa (which operates as a shared

service center for all of Grupo Nutresa's companies).

These duties and responsibilities are described in the Code of Corporate Governance and in several of its related policies, such as the Comprehensive Risk Management Policy, the Anti-Fraud and Anti-Corruption Policy and the Management Policy for the Prevention and Control of the Risk of Asset Laundering and Terrorism Financing, as well as in the Internal Audit Bylaws, which can all be found at Grupo Nutresa's website.

Moreover, the management of the internal control system is ensured through the job executed by the Tax Auditor, which is performed by a specialized firm that is widely recognized in the industry and has been appointed by the General Shareholders Assembly. Based on a constructive analysis outline and on independence of both operation and criterion, the Tax Auditor verifies and publicly certifies the compliance with the legal, statutory and administrative regulations; the adequate protection, use and preservation of the Company's assets; and the reasonableness of the financial statements and the disclosures contained therein, generating assurance among the shareholders, the Board of Directors, the Senior Management and the Government.

With the purpose of guaranteeing an adequate management of the risks inherent to the performance of its operations, Grupo Nutresa has a comprehensive risk management system that covers all the businesses and instances of the Organization: from the Board of Directors, through its Finance, Audit and Risks Committee; to the operating departments, through the integrated management systems, among others.

Additionally, the system includes both the Policy and Manual for Comprehensive Risk Management, which are aligned with the ISO 31000 standard, whose latest version was published in 2018. The necessary analysis for aligning the internal methodology and the proposed changes was conducted based on said latest version of the standard. Both the Policy and Manual provide the general framework and guidelines for the development of the risk assessment and mitigation processes. To facilitate these activities, Servicios Nutresa's Risk, Insurance and Infrastructure Management Department enables and supports Grupo Nutresa's companies in the implementation of the process through the proposal and disclosure of risk management methodologies, communication, monitoring and culture-building, and through the design and implementation of effective plans and measures for dealing with the risks.

The Internal Audit Department, through an independent and comprehensive assurance management process, verifies the achievement of the Organization's goals and objectives in all processes and watches over the adequate protection, use and conservation of the assets. To guarantee the independence of the internal auditors, allowing them to perform their job freely and objectively, they have the support of the Internal Audit Manager, who is in turn functionally dependent on Grupo Nutresa's Finance, Audit and Risks Committee. Currently, Grupo Nutresa's internal audit is certified by the Institute of Internal Auditors —IIA Global— based on its international framework for professional practice. This framework is a benchmark recognized by global organizations such as the OECD, the IMF and the World Bank, and it is applicable in more than 190 countries worldwide.

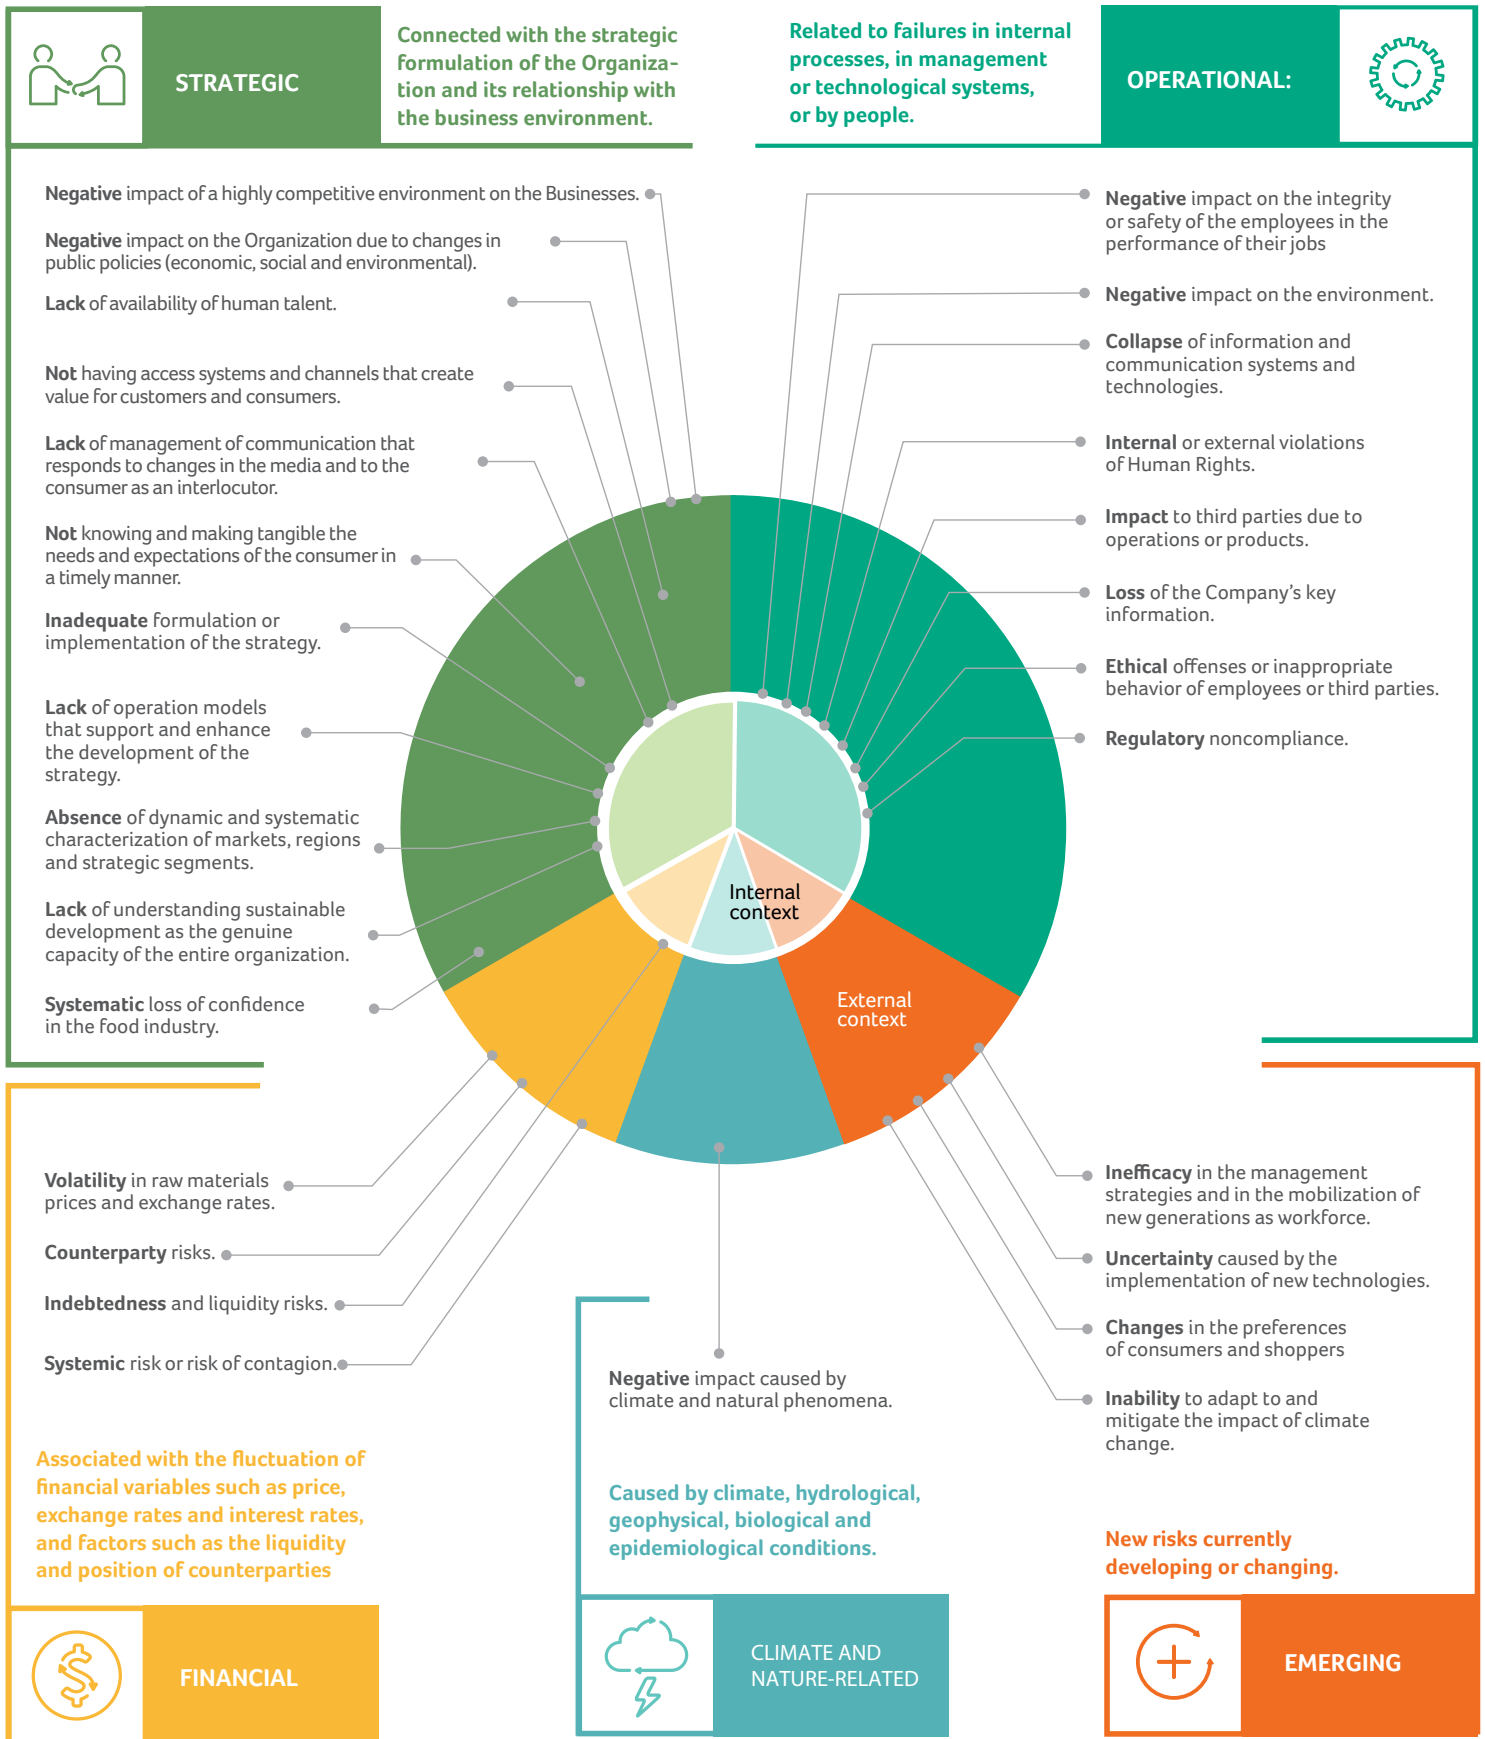

In 2018, the results of the Senior Management's continuous monitoring activities and of the independent assessments carried out by the Internal Audit Department and by the Tax Auditor were communicated in each case in a timely manner to the corresponding authorities, including the Finance, Audit and Risks Committee, thus allowing to confirm that the Organization's internal control system is adequate. Based on the aforementioned activities, it was also reported that, over the year, there were no significant deficiencies in the design and operation of said system that could have prevented the achievement of its objectives. Furthermore, no fraud cases were identified with a significant effect on Grupo Nutresa and its businesses.
