2019 First Quarter Results

## Grupo Nutresa starts 2019 with a **6,7% growth in sales** and an **ebitda margin of 14,3%**

Grupo Nutresa S.A. (BVC: NUTRESA) discloses its Consolidated Financial Results as of March 31, 2019.

As of the closing of the first quarter of 2019, Grupo Nutresa's total sales show positive growth dynamics both in Colombia and abroad. Consolidated sales amount to COP 2,2 trillion, representing a 6,7% increase with regard to the corresponding term in 2018.

In Colombia, Grupo Nutresa's sales had a positive performance, amounting to COP 1,4 trillion, which represent 62,7% of the total, with a growth of 4,6% in relation to the same period in 2018.

International sales in USD amount to USD 267,3 million, exhibiting a 0,8% growth and representing 37,3% of the total. When expressed in Colombian Pesos, these revenues stand at COP 837.572 million, that is 10,5% higher than those of the first quarter in 2018.

Consolidated gross profit amounts to COP 992.228 million, growing by 6,0% over the consolidated gross profit for the past year's first quarter. This is the result of increasing sales and higher costs of the imported commodities due to the depreciation of several currencies in Latin America against the US Dollar.

Thus, the operating profit amounted to COP 230.163 million, which is 14,0% greater than the equivalent profit for the first term of 2018.

In terms of profitability, the ebitda totals COP 320.118 million, representing a 17,1% increase with regard to the same period of the previous year, with a margin on sales of 14,3%. This result is the product of actions focused on managing expenses in search for the constant improvement of Grupo Nutresa's productivity and operational efficiency.

For comparison purposes, it should be noted that, with the accounting standard formerly used, the operating profit growth would have stood at 9,3%, and the ebitda growth would have reached 3,6%, with a margin of 12,6%.

Net post-operative expenses, which totaled COP 7.343 million, represent 0,3% of the Organization's sales and reflect the continuous reduction in financial expenses as a consequence of lower financial costs and lower overall debt over the past months.

Finally, and capturing the aforementioned highlights, the consolidated net profit amounts to COP 174.437 million, that is 44,3% higher than the first quarter of 2018. It is worth mentioning that in 2018 the dividends of our investment in Grupo Argos, which totaled COP 26.176 million, were officially declared in the second quarter, not in the first one as per usual. If such fact were omitted, Grupo Nutresa's net profit would present a growth rate of 18,6%.

### Separate Financial Statements of Grupo Nutresa S.A.

The Separate Financial Statements of Grupo Nutresa S.A. report COP 176.948 million in operating revenues over the first quarter of 2019, derived from the application of the equity method on subsidiaries and associated companies for COP 115.455 million, and from the recognition of dividends from the investment portfolio totaling COP 61.493 million. Net profit amounts to COP 176.330 million and the equity totals COP 8,6 trillion.

The results mentioned above are reported using a new accounting standard for leases in Grupo Nutresa's financial statements. This new standard, **IFRS 16 Leases**, eliminates the distinction between operating and financial leases, proposing a unique model for the reporting of such contracts. The changes emerging from the application of the new standard can be reviewed in full detail in the financial information published on Grupo Nutresa's website.

Grupo Nutresa's **consolidated sales** deliver a positive performance, amounting to **COP 2,2 trillion**, 6,7% higher than the revenues for the first quarter of 2018.

**Sales in Colombia** totaled **COP 1,4 trillion**, exhibiting a growth rate of 4,6% compared to the 1Q sales in 2018.

**International sales**, which amounted to **USD 267,3 million**, grew by 0,8% in relation to the international sales of the past year's first quarter. In COP, this growth is equivalent to **10,5%**.

In terms of **profitability**, the Organization reports an ebitda of **COP 320.118 million**, representing 14,3% of the sales.

## Highlights from the 2019 Shareholders' Assembly

Highlighting the work of its Stakeholders through inspiring stories, on March 26th Grupo Nutresa held its Shareholders Assembly at the Plaza Mayor Convention Center in Medellin.

In addition to the 2018 Financial Statements, the Assembly approved the profit-distribution project that proposed a monthly per-share dividend of COP 51,00 for the period between April 2019 and March 2020. This proposal represents an increase of 8,0% compared to the current dividend of COP 47,20.

All shareholders and visitors received a hard copy of the Integrated Report 2018, which is available for downloading at: <http://informe2018.gruponutresa.com/pdf/integratedreport2018.pdf>

## VENTURES

### Grupo Nutresa launched Nutresa Ventures

Grupo Nutresa launched **Nutresa Ventures**, its new Corporate Venture program, from which it will invest in highly innovative companies in early stages that have the potential to generate significant changes in the fundamentals of the food industry.

The program, developed in partnership with Veronorte – a firm specialized in these type of investments – will allow Grupo Nutresa to participate in companies that help it strengthen its credentials in terms of nutrition and wellness; develop new channels to reach and interact with clients, consumers and shoppers; and adopt technologies to maximize business productivity and sustainability.

With this program, the Organization seeks to open a strategic window to new knowledge, product categories and business models that allow it to identify and appropriate the new transforming forces of the industry, as well as to promote disruptive

innovation and complement its current business and talent ecosystem.

Grupo Nutresa's inorganic growth strategy, via mergers and acquisitions (M&A), is deployed on two fronts: The first, where it seeks to generate growth opportunities through brands in medium and large companies in its strategic region; the second, where it invests in ventures to which it is attracted by the capacities that can be jointly developed and by the possibilities of accelerating its growth, while taking advantage of its own capabilities and platforms.

Veronorte is an investment-management firm, committed to maximizing sustainable progress, human empowerment and the common good. As part of its strategy, it designs, implements and manages corporate venture programs in partnership with large companies in emerging markets.

### Compañía Nacional de Chocolates signed a research alliance with CIAT

In recent days, Compañía Nacional de Chocolates (CNCH) and the International Center for Tropical Agriculture (Centro Internacional de Agricultura Tropical, CIAT) signed an agreement that will allow them to carry out broad-spectrum research and work collaboratively to achieve the inhibition of soil-mineral absorption using genetic editing, to benefit farmers in the Colombian cocoa sector and eventually in the rest of America.

The purpose of the agreement is to use the Genome Editing technology, a cutting-edge genetic research methodology applied to the improvement of crops, and from which Compañía Nacional de Chocolates will contribute its knowledge in cocoa development. In its initial phase, the agreement will last for two years. Compañía Nacional de Chocolates' investment for the first phase is USD 313.817.

In concluding this work, CNCH and CIAT hope to be able to deliver a quick, effective solution to the absorption of soil minerals to the Colombian and American cocoa sector.

## 100 años JUNTO S Pozuelo celebrated its 100 years of history

On March 20, Compañía de Galletas Pozuelo, in Costa Rica, celebrated the opportunity to make history during its first one hundred years, as well as the possibility of laying the foundations to build another century.

As part of this great celebration, the company launched the **“I Want to Believe”** campaign, which reflects optimism for a future that promises well-being, not only for the company and its employees, but also for thousands of families in the strategic region.

Held at the National Theater of San José, the official ceremony was attended by employees, clients, strategic allies, business partners, government representatives and Grupo Nutresa executives.

Throughout this time, Pozuelo has made a great contribution to the progress of Costa Rica and Central America through the values promoted by its brand, which invite us to believe in a more equitable, just society through respect, tolerance and inclusion.

## Novaventa has installed more than 3,000 new vending machines in Colombia

Novaventa continues executing its expansion and growth plan in the vending machine format, within the framework of its **5K Plan**.

At the end of March 2019, the company completed the installation of more than 3.000 new vending machines in the main cities of Colombia. This milestone of installations was achieved in just eight months, which represents a considerable increase in the speed of development of the business model.

For May, Novaventa expects to exceed the installation of more than 4.000 new machines, which would lead the business to achieve a total installation of more than 12.500 throughout the country, to continue offering convenient solutions to millions of consumers nationwide.

## Bénet® Bénet Initiated its Internationalization Process

Inspired by digital, environmental, social, geopolitical and demographic megatrends, since the end of 2018 Bénet began to expand its footprint in the countries of Nutresa’s strategic region with the launch of the nutritional beverage in Panama, Costa Rica and Guatemala.

The brand’s goal is to become the #1 nutritional-solution platform in the region, delivering to its consumers functional daily-consumption products that improve their quality of life with a clear purpose: to nourish the potential of people through functional, scientifically designed products for daily use.

## Grupo Nutresa Is the most responsible Company with the Best Corporate Governance in the Country

For the first time since the launch of the ranking in 2011, Grupo Nutresa was ranked as the most responsible company in Colombia, according to the Corporate Business Reputation Monitor (Monitor Empresarial de Reputación Corporativa, MERCOCO) in its Social Responsibility and Corporate Governance version, the results of which, corresponding to the 2018 measurement, were published in March. The process of preparing this ranking is based on the same evaluation of managers of Colombian companies that serve as the basis of MERCOCO Empresas. In this case, the 1.173

members of management committees pre-selected 546 companies that, in their opinion, are the most responsible and which have the best corporate governance in the country.

This pre-selection is given by virtue of the qualification in fifteen variables grouped into five values: Ethical Knowledge, Transparency and Good Governance, Responsibility with Employees, Commitment to the Environment and Climate Change, and Contribution to the Community.

## CNCH inaugurated Its second “Cocoa Nursery for Peace”, in San Martín, Meta

With the aim of continuing to contribute to sustainable rural development and generate better living conditions for small producers, Compañía Nacional de Chocolates (CNCH), in alliance with the Government of Canada, Repsol and Socodevi, inaugurated its second Cocoa Nursery for Peace “Aromas del Ariari” in the municipality of San Martín, Meta.

The nursery has a productive capacity of 700.000 cocoa seedlings in two cycles per year, benefiting small and medium cocoa producers, as well as agro-industrial projects in the Eastern Plains, through the propagation and distribution of plant material, refined clones and aroma, self-compatible and high performance in productivity and quality. Likewise, this initiative will promote work with

small cocoa producers to generate new skills and knowledge, and thus achieve sustainable cultivation, improving the quality of life of the families that inhabit the territories as a contribution to the construction of peace.

This new nursery complements the project already implemented in Codazzi, Cesar, focused on the Colombian Caribbean Region, and together they will have an annual production capacity of nearly 2.000.000 cocoa seedlings. These are tangible examples of the Company's commitment to generate and promote inclusive cocoa projects to promote successful entrepreneurship alternatives that contribute to the reconstruction of the social fabric and to sustainable development.

## Grupo Nutresa received recognition in the SAM Silver Category

For the fifth consecutive year, Grupo Nutresa obtained the Silver Class distinction in the SAM Sustainability Yearbook 2019, after being recognized as the second company in the food sector in the Dow Jones Sustainability World Index, in September 2018. This confirms the Company's commitment to sustainably grow hand in hand with social progress, while protecting the environment, thus confirming its purpose to build A Future Together.

Grupo Nutresa has already achieved the Bronze Class distinctions in 2012 and 2014 and the Silver Class uninterrupted since 2015 to date in the SAM Sustainability Yearbook.

“For Grupo Nutresa, sustainability is a guide for corporate action, which inspires all our actions. For this reason, being included in this Yearbook once again allows us to measure and compare ourselves with the leading companies in this field in the world. The result obtained ratifies that, as an organization, we are managing permanence over time and that we are an engine for the actors of our value chain and a benchmark for the sector,” affirmed Carlos Ignacio Gallego, Grupo Nutresa's CEO.

Some of Grupo Nutresa's most outstanding strategies and recent actions in terms of sustainability are aimed at offering healthier foods to consumers every day, reducing the impact of its operations on the environment and consolidating a corporate action inspired in the promotion of and respect for Human Rights. These initiatives are now highly valued by investors, consumers and other stakeholders, who consider sustainability as one of the most important attributes in their decision making and preferences.

Grupo Nutresa's permanence in the Sustainability Yearbook and in the Dow Jones Sustainability Index demonstrates the Organization's ability to manage its processes through the protection of the environment, the creation of economic value and a better relationship with its stakeholders.
